## OURSPECIALTIES

UTP specializes in selling engine parts, engines and helping customers manage inventory. We utilize manufacturer & FAA authorized repair vendors for components and maintain part histories in an integrated computer inventory management system. Through consignment and purchase of surplus inventory we keep your cash flow up and cost down

## OURCERTIFICATIONS

Our customer and supplier base is made up of the best-known names in the small gas turbine engine industry. All parts are accompanied by FAA 8130-3, TC Form 1 or EASA Form 1 approval and are stored in a 50,000+ square foot climate controlled facility located in the southeastern United States. UTP is ASA-100 & FAA AC-0056 certified.

Contact UTP when buying and selling turbine engines or parts.
